

Enriched Air Diver Course

**Special Offer Limited Time!
Only \$99**

NITROX...

Wonder what the mystique is?

Our PADI Enriched Air Diver Specialty course has the answers. By diving with enriched air, rather than standard air, you can extend your no decompression limits and shorten your surface intervals. This means more time underwater doing what we enjoy most. Diving!!

When:

Pick One of the Upcoming Courses

- **Monday, May 18th**
- **Wednesday, May 27th**
- **Monday, June 8th**
- **Wednesday, June 24th**

From 7:00-10:00 pm

The PADI Enriched Air Specialty Course is conducted in 1 classroom session, and includes an academic review, a Practical Application session where you will learn how to analyze Enriched Air cylinders, obtain Enriched Air and plan Enriched Air dives using a Enriched Air compatible dive computer, which is included during the Practical Application. The course is based on pre-study of the PADI Enriched Air Diver Manual and DVD.
