

PADI ReActivate

Refresh Your Skills

Haven't been diving in a while?

It's now easier than ever to
refresh your skills!

Rediscover the underwater world
with PADI's ReActivate program!

PADI ReActivate™

ReActivate is a PADI program to refresh your skills.
Designed to help you get back into the water safely.
Contact us today to find out more about PADI ReActivate.

One private session scheduled at your convenience is all it takes!

The ReActivate™ program is the perfect way to update your dive skills and knowledge before jumping back into the water. Whether you want a few reminders or need to go over the basics, ReActivate is personalized to you. You conveniently review scuba concepts on your tablet, mobile device or computer, then go diving with a PADI Professional. It's quick and easy, and a good way to prepare for your next PADI course or get ready for a diving vacation. The best part is, divers who complete both the knowledge and in-water skill refresher receive an updated certification card with a ReActivated date on it.
